

MUHAMMAD DANIAL KHAN

📞 +923055508284 | ✉️ muhammaddanialkhan298@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | 📍 Rawalpindi, Pakistan

Computer Science student with hands-on Full Stack development experience — building scalable web applications using JavaScript, React, Node.js, Python, and MySQL, with a strong focus on backend architecture, secure coding, and clean API design.

Also skilled in Cybersecurity fundamentals, including system security, vulnerability assessment, and basic penetration testing.

EDUCATION

Arid Agriculture University

Rawalpindi, Pakistan

BS in Computer Science

Oct. 2022 – May 2026

- Coursework: Data Structures & Algorithms, Operating Systems, Databases, Software Engineering, Networking
- Final Year Project: **Electricity Theft Detection System** — data-driven system identifying abnormal consumption patterns to detect power theft and improve energy monitoring

PROJECTS

YouTube Video Downloader | Python, File Handling, API Integration

- Developed a Python-based tool to download YouTube videos in multiple resolutions and formats
- Implemented efficient video stream handling for fast and reliable downloads
- Designed a simple interface with quality selection and local file storage functionality

Crypto Wallet Application | Node.js, Express.js, MongoDB, TypeScript, Tailwind, REST APIs, Security

- Developed a secure backend for a crypto wallet enabling user authentication, wallet management, and transaction handling
- Designed MongoDB schemas for users, wallet balances, and transaction history with efficient and reliable data operations
- Implemented security-focused features including encryption, authentication, and safe API handling to ensure protection of sensitive financial data

Electricity Theft Detection System | Python, Flutter, Data Analysis, MySQL, Firebase, Flutter app Dashboard

- Developed a data analysis system to identify abnormal electricity consumption patterns and flag potential power theft cases
- Built end-to-end pipeline from raw consumption data ingestion to anomaly detection and reporting dashboard

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS, SQL

Frontend: React.js, Responsive Design, Bootstrap, DOM Manipulation

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware Design

Databases: MySQL, MongoDB, Schema Design, Query Optimization

Security: Web Application Security, SQL Injection, Penetration Testing, Secure Coding Principles, Linux System Security

Tools: Git, GitHub, Linux CLI, Postman, VS Code, Zapier,

ADDITIONAL INFORMATION

Languages: English (Intermediate), Urdu (Native)

Availability: Open to internships & entry-level Full Stack or backend roles

Interests: Full Stack Web Development, Backend Systems, Cyber Security

Soft Skills: Problem-solving, Teamwork, Self-motivated, Fast Learner
